Kodak Picture Kiosk Software V7.0 makes creating unique photo gifts faster and easier than ever before. Boost sales opportunities with an improved photo book workflow, a new seasonal product, and expanded print offerings that deliver an optimal customer experience.

Take a square approach to preserving memories.

- Introducing two new premium products for added cross-sell opportunities. Delight your customers with a 2x2" cube ornament and a 3x3" photo cube.

Copy Service just got more convenient.

- The latest updates to the **Kodak** Copy Service enable easy transfer of PDF documents directly from a customer's smartphone (Android only).
- Customers can use a cable or Bluetooth to upload their files to the **Kodak** Picture Kiosk and make copies.

Customers can now print new sizes, expanding the photo product offering and increasing profit potential.

- The **Kodak** 305 Photo Printer has been updated to provide new print sizes. Choose to enable either 3.5x5", 5x5", 5x7" or a 6x6" print.
- It also provides the next generation of EP duplex printers. The **Kodak** DL2200 Photo Printer creates flat and folded duplex cards, calendars, photo books, photo cubes and Copy Service products.

The latest software configuration makes product collection simple.

- The large, engaging display helps customers pick up their products quickly and easily.

Additional storage options are now available for Kodak Biometric ID Photo.

- Biometric ID photos can now be safely stored on the **Kodak** Memory Saver USB 3.0 Flash Drive, **Kodak** Archive DVD and **Kodak** Picture CD.
