Expand your kiosk offering with new in-store products and services.

The **Kodak Moments** Retail Software Version 24.0 features brand new, same-day personalized photo products. Now it's even easier for customers to make the most of their favorite memories with the latest improvements on kiosk connection and photo uploads.

In addition, new and exciting features for Enhanced Passport and ID Photo Services are included in this software update:

- Improved algorithm to check if head pose on passport photos meets government requirements
- New Canada photo ID permit option
- Enhanced ability to inspect passport photo check successes and failures

With even more product integration, refined user interface and kiosk workflows, key highlights in this software update include:

- Support for new Oki C844 EP Printer
- Premium configurable cross-sell dialogue additions
- Improved document printing performance
- Automatic red eye detection and removal from customer photos
- DL2X00 error messaging and instructions on how to connect back to KPEX

Enhanced photo transfer and new custom products.

Heat Activated Photo Mug

A photo appears once this mug is filled with coffee or tea—just like magic.

- Heat-activated ceramic mug reveals a photo when filled with a hot beverage
- Customers can personalize with their photo and custom designs
- Microwave- and dishwasher-safe
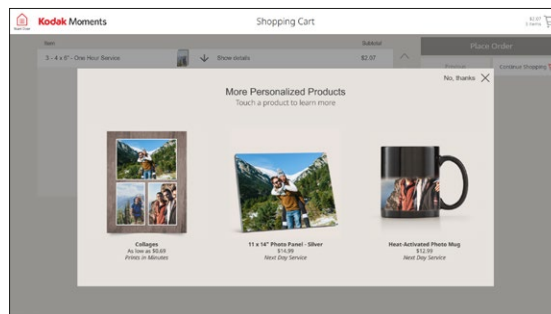

Board Coasters

A memorable complement to a cold beverage.

- Set of 12 4x4" coasters that can be customized with photos and optional text
- Includes box to store coasters with window to showcase photos
- Themes and designs that are perfect for special occasions

New Cross-Sell Feature

Leverage your merchandising with customized product recommendations in kiosk workflow.

- Organize which products are presented to the customer and their order of appearance
- Ability to schedule seasonal products for cross sell

Easy Wireless Connection & Printing

Expedite photo upload process with QR code onboarding.

- Customers can scan the QR code to wirelessly connect to kiosk wifi
- Print photos directly from Facebook and Google Photos
